HNS Premium Limited (Civil & Commercial Construction)

HNS International (C&F Agent, Govt. Approved)

HNS Corporation (Trading House, Supply & Agency Business)

Chairman's Message

It is indeed a great pleasure to see that HNS Group has become one of the most highly reputed and esteemed companies in the automobile sector of Bangladesh. Started in 1991 as importer & distributor of Japanese Motor Vehicles, HNS is now the most reliable and trustworthy retail distributor of auto cars, SUVs, wagons, micro buses, pick-ups, trucks, buses, etc. all over Bangladesh.

With the passage of time, the Company has diversified its business, to heavy duty commercial vehicles, tires, industrial and construction equipment etc. It is a great pleasure for us that today Hyundai occupies the highest position in AC luxury buses throughout Bangladesh. To revolutionize the transportation sector and to minimize the costs of CBU vehicles, we have set up a factory; HNS Heavy Industries Ltd. We are now assembling luxury buses and mini buses locally by importing chassis from South Korea. This is a big step forward setting a significant milestone in the history of HNS.

All these successes of our efforts are small but a solid, determined and well-planned step towards making our country self-reliant in the automobiles sector as a whole. During the last 30 years not only our volumes of business have increased manifold and our operations diversified, but simultaneously we have also contributed to the national economy. We believe that we cannot thrive alone if the economy and the political situation of the country do not continue to keep marching forward. Our companies currently have employed over 600 personnel. All of this became possible with the co-operation of our foreign partners and by the hard and sincere efforts of our employees and above all, our clients and well-wishers. All of our efforts will continue and with the co-operation of all concerns, we are thriving towards our ultimate goal to establish a state-of-the-art automobile manufacturing and assembling factory in Bangladesh. Finally, I gratefully thank you all for the support and trust you have placed on HNS. We shall continue in our endeavor to deliver the best for the people of our country.

Mohammed Shahidul Islam
Chairman

About HNS

The philosophy of establishing HNS Group is to participate in the socio-economic development of Bangladesh. HNS started as a Trading House in the year of 1991 and gradually kept its consistent growth with innovative thinking and possibilities under the visionary leadership of Mr. Mohammed Shahidul Islam (Chairman). Besides trading, at the end of 1992 HNS started importing and selling cars from Japan and progressively became the market leader in this sector since 1996. The foundation of our business is balanced growth, goodwill and reputation, which we have earned through highly dedicated and well-organized management and services. Through the passage of time the group has diversified its business in different fields as well as continued to contribute to the socio-economic development of the nation.

Besides importing cars from Japan HNS became the distributor for Commercial Vehicles of Hyundai Motor Company (HMC) Korea for marketing their trucks, buses and special vehicles in 2008 as well as doing business with Hyundai Genuine Co., Ltd and Hyundai Construction Equipment India Pvt. Ltd. for their material handling equipment. Besides HNS is marketing Hankook Tires, SK Lubricants in Bangladesh territory. HNS is also the sole agent of Liebherr Tower Crane from both Liebherr Germany and Liebherr India. HNS is the exclusive representative of Shinmaywa Passenger Boarding Bridge and Goodyear Tire in Bangladesh.

HNS itself is a well-known business house for its finest vehicles and its quality services. Our corporate strategy emphasized speed efficiency flexibility and innovation in every stage of the companies operations from importing, marketing and after-sales services to the entire satisfaction of the customers. In terms of quality, reliability, competitiveness and service backup support, HNS is the best choice and can be relied upon totally.

Bangladesh is a developing country with a population of 167 million and has been growing steadily with 6 to 7% GDP growth for the last ten years. Due to this mounting population and economical enlargement, demands for quality automobiles and public transportation services have increased manifold. Over the course of last 02 decades Bangladesh has transformed from one of the ten poorest countries to the 41st largest economy in the world and getting enrolled in the list of LDCs. Presently Bangladesh has been elevated to a developed country and has been placed in a dignified position in the world map. The country has established itself as a role model of development through achieving unparalleled success in all areas, including economy and development, social policy, culture, law and order and foreign policy.

Now the economy is moving faster due to an emerging strong mediocre and hardworking entrepreneur who are investing and taking risks, hoping to make Bangladesh a developed nation which is scheduled to become official by 2026. Automobiles and development are two sides of the same coin. Currently our country is going through unprecedented infrastructural development including road networks, bridges, and tunnels on the pathway of evolving to its full capacity after completing all the mega-projects. The demand and necessity of the automobiles sector has been increasing tremendously. Right now, the growth of the automobiles market has gone up 30% annually, while HNS holds around 17% of the total market share by importing cars from Japan. Though all major car brands are in our country, Toyota is still dominating the market with around 90% of the market share. Our trusted partner is ACT Co., Ltd. who is one of the oldest and leading exporters of used and new Japanese vehicles based in Tokyo since 1978, having a motto "COMPETITIVE PRICES AND CUSTOMER SATISFACTION". ACT Co. Ltd. are members of all the auctions (USS, JAA, TAA, HAA, CAA, JU, NAA, Arai, Auc-Net, I-Auc etc.) and each vehicle is personally inspected before purchasing and then transported to their Holding Yard with capacity of accommodating 400 cars. All vehicles are groomed, polished and steam cleaned and all running parts and electricals are thoroughly checked by their workshop before shipment. In short, ACT Co. Ltd. has almost thirty years of experience, which ensures the fulfillment of all our customer's needs.

HNS has two sales centers, one in the capital city Dhaka and another in the port city Chattogram. Both of them are located in the most important commercial centers and managed by a team of dynamic, smart, efficient and qualified work force. The brand and range of vehicles we deal with are mostly Toyota which is the choice of the majority of users and the most popular in this country. We also deal with other reputed brands like Mazda, Honda, Mitsubishi, Nissan, and others. HNS imports cars, wagons, SUVs, pick-ups, trucks, and construction & earth moving vehicles as well as special vehicles. The annual import volume in terms of quantity is over 1,700 vehicles of different models and is rapidly increasing every year.

Commercial Vehicle

Over the years, Hyundai Commercial Vehicles have carved out a sterling reputation worldwide for their outstanding performance, quality and reliability backed by a tireless quest for technological innovation and a highly skilled, dedicated workforce. Today, Hyundai is available in more than 150 different models and sold in over 100 different nations. HNS is a proud partner of Hyundai Motor Company Korea for the territory of Bangladesh under commercial vehicle category since 1998.

Hino, Tata, Ashok Leyland, Mahindra was the market leader once, but with the strong vision and leadership of Mohammed Shahidul Islam, the Chairman of HNS Group, the expected change to bring the best quality automotive products have been made possible in Bangladesh. Therefore HNS Group was nominated for the best seller award in Asia. Because of its superior quality, modern design and reliability, Hyundai Commercial Vehicles are gradually increasing their market share. At present Hyundai Universe Noble is the most popular and demanding luxury air conditioned bus completely dominating the Bangladesh market.

HNS Auto solutions

The dream Mohammed Shahidul Islam dreamt back in 2007 by importing Hyundai commercial vehicles that actually fulfilled through introducing "HNS Auto Solutions(Has)", in focus of after sales service, handling warranty period of our sold buses and assembled bus and mini buses. Henceforth, HAS reached the level of supremacy by contributing to National GDP through assembling Hyundai bus & trucks that bring down the cost of the buses remarkably low for the end consumer and generate employment among locals.

Eventually, the milestone comes through with the technical collaboration of HMC and Shelline Company Ltd. (Korea) in manufacturing and fabricating the "Hyundai Universe Elegant Bus" and minibus 'DURJOY' for the Bangladesh market. We have also introduced world-best Aero Express chassis in Bangladesh, a Hi-tech ECU-based chassis that has been imported from Hyundai Motor Company (HMC), South Korea.

Beside buses & minibuses, we are also doing R&D to develop and assemble human haulers, pick-ups, dump-trucks, bottle trucks and other special vehicles & equipment.
